Creating Awe, Wonder and Respect for:

Wildlife
What sort of animal is this?

Or this?
People know about-

- African Elephant
- Orangutan
- Snow Leopard

Why don’t we know?

- We have more interaction with TV than the bush.
- More media focus on international wildlife than Australian native species.
- Behavioural nature of our wildlife
Why is this tree important?
All these animals use wattles!
Using technology, Bat detectors, spy scopes

Out in the bush!

Up close and personal

Experienced ecologists, with stories to tell
Fun Frog Facts

Dragons, Scutes and other Scaly Creatures

What Bird is That?

Going Batty

Tracks & traces
Environmental Education is for everyone!
Gippsland Lakes needs everyone to know –

✓ Its wide diversity of habitats
✓ Good Land management to support diversity and continued health.

Gippsland Lakes needs monitoring–

✓ Health of habitats– aquatic and terrestrial
✓ Threatened species
✓ Critical habitats
